FRIDAY, SEPTEMBER 1, 1911

## RECIPROCITY OR RESTRICTION?

Edmonton Journal, January 27th, 1911:  
 "It is clear that in some respects much more has been accomplished than was looked for. The Canadian manufacturing industries had no occasion to be greatly alarmed."

Edmonton Journal, January 28th, 1911:  
 "The very slight reductions made in the Canadian duties on agricultural implements, on coal, etc., will give no material relief to our consumers. So far as the commodities that we desire to import are concerned there is no change in the tariff arrangements that any Canadian producer or consumer need either fear or welcome."

Edmonton Journal, January 30th, 1911:  
 "Sir Wilfrid told the manufacturers some weeks ago that nothing would be done to displace them. The agreement is quite in keeping with this promise."

Canada's own fiscal system remains practically unchanged. It is of first-rate importance to our producers to be able to ship grain, cattle, dairy products, etc., to the American markets."

Every Conservative should vote for reciprocity.

## GETTING FAMOUS

Mr. Daniel MacGillivuddy is getting glory and honor and exaltation these days at a great rate. Mr. W. A. Buchanan, of the Lethbridge Herald takes notice of him long enough to remind the world—quite unnecessarily—that Daniel does not speak the truth when there is any profit in speaking the other thing. What to most people would be quite as galling as this—the Calgary Herald and the Edmonton Journal both put him on the back as a noble-minded and public-spirited citizen. Which, by the way, leads the Calgary Albertan to remind the Herald that it is not so long ago since Daniel was declaring the editor of the Herald to be a perjurer, and that the editor of the Herald—quite properly—considered Daniel too contemptible to be paid the distinction of an action for libel. To complete the situation, Daniel is traveling with Hon. Geo. E. Foster, of Union Trust notoriety.

## "GET BUSY"

With the splendid conventions at Vegreville on Saturday and at Edmonton on Wednesday the Liberals of Alberta completed the selection of candidates for the election. In every riding a Liberal is running and only one. In every constituency the Liberals declare their intention of electing the man of their choice; and, it may be added, there is not a constituency in Alberta where they have not a good chance of making good their undertaking.

A fortunate, and a most complimentary feature of the situation is that in no riding are rival Liberal candidates bidding for the reciprocity vote, and thereby offering an opportunity for an anti-reciprocity candidate to win through the division of the reciprocity forces. With a cause so popular as reciprocity, that which the Liberals are now fighting for, it is not infrequently happens that the aspirants for Parliamentary honors are more numerous than the seats to be filled. In any Alberta constituency there could easily be found a score of men who would gladly carry the banner of reciprocity. But in each constituency there is only one Liberal carrying it. That means that throughout the Province scores of men who would willingly be candidates—and who with the party solidly behind them might with confidence face the election—that these men have dropped their personal aspirations, buried their personal disappointments, and refused to endanger the cause by dividing the forces of those favorable to it. Alberta Liberals think more of the idea than of the individual.

They back the man for what he represents. If reciprocity is defeated it will not be through their folly.

The candidates chosen, the real fight begins. The selection of the man who is to locally lead the forces is an incident—an important incident, but still an incident—the essential thing is that whoever leads, leads to success. And, be the candidate as popular as he may, or as effective a campaigner as he may, he cannot win without the hearty assistance of those who have chosen him and of those who agree with his views. If he has his part to play, they have theirs. They cannot do the work which falls to him, neither can he do the work which properly belongs to them. The battle is theirs as much as his, and upon them rests responsibility as surely as upon him. Fighting all along the line is the kind of fighting that wins.

A gentleman of some experience in such matters is credited with the remark that "elections are not won by prayers." Whatever Mr. Tarte may have meant by this maxim, an obvious and very proper meaning to attach to it is that elections are won by work. And not by the work of a few but of many; not by the organizers and speakers alone, but by individuals scattered throughout the riding, each putting himself out to some extent to promote the cause he has at heart, to persuade his neighbors to his way of thinking and to get to the polls voters who are of his way of thinking but who would not of themselves sacrifice the time and take the trouble of going to vote. In every local centre may be found a few men who concern themselves in public affairs more than others; who through temperament, training, or a sense of responsibility take an interest in the affairs of the community or the state beyond that of their neighbors and who may be relied upon to put their shoulder to the wheel when a common cause is to be advanced. These are the men who win elections; and if these get in to the fray they are reported to be doing and as there is every reason to believe they are doing, reciprocity ought to sweep the Province from end to end.

The Montreal Star, foremost among the papers opposing reciprocity, recently issued a warning to its readers to not be deluded into voting for reciprocity candidates because of personal friendship. The friends of reciprocity may well take a lesson from this warning to their opponents. Reciprocity is the issue of the election. As nearly as practicable, the election is a referendum to decide whether reciprocity is to be accepted or not. If reciprocity is to win as it should win, it must have the concentrated support and the solid vote of its friends, regardless of all other questions or considerations. A vote for an anti-reciprocity candidate is a vote against reciprocity, for whatever reason it is given.

## "AN ACT TO ENCOURAGE EMIGRATION TO CANADA."

(Congress Charles E. Pickett, Iowa, April 18.)

"If the percentage in the increase of Canadian farm products continues for the next fifteen years as it has for the past eight years, and the same increase obtains in this country as in the past eight years, the production of Canada will equal the production of the United States in practically all farm products except corn."

"The more you examine the agreement the more apparent it becomes that Mr. Fielding was right when he stated in the House of Commons of Canada that they had gained everything they desired—free access to our markets, 'without doing any injustice to our manufacturers.' I am unable, after careful examination, to find wherein the agreement can, by any fair construction, be termed a reciprocity agreement. It cannot be sustained on that theory. No one has attempted to point out what Canada grants the United States, and I challenge anyone to show where our people are given any favorable concession in Canadian markets. The agreement injures wholly to the benefit of Canada. It is unilateral. It should be entitled, as Senator Champ observed of the treaty of 1854, an act to encourage emigration from the United States to Canada, and to encourage production in Canada instead of the United States."

**PRINCE'S ANNEXATION SPEECH.**  
 Lethbridge Herald—"Your campaign sheets in their efforts to maintain an association were, in quoting the words of Congressman Price, of Illinois, who said:

"I may say to my neighbors on the north, be not deceived. When we go into a tariff and get control of it, we take it. I. Now let us see if the people of Canada believe in reciprocity and annexation."  
 It is significant, however, that there is no mention made of the fact that Mr. Price opposed reciprocity, and voted against it. It was merely playing the same old game of raising the annexation cry to get the Canadian people to defeat the agreement when it was seen that the United States Congress would pass it. There is no lie worse than a half-truth.

## THE WHY OF IT.

Montreal Herald—Harper's Weekly, a United States periodical of strongly anti-trust tendencies is interested and "put a bit surprised" to learn that the American trusts are accused of taking a hand in the Canadian campaign against reciprocity. There are two reasons why Harper's Weekly is so surprised. One is that the charge is an exceedingly damaging one, and a mighty effective answer to the Conservative charge that the American trusts are only waiting for the wall to come down and will then rush in and monopolize Canada's trade and industry. The other reason why the charge was to be expected lies in the inherent probability of its substantial truth.

Does anyone doubt that these three great combinations spent money in the effort to defeat reciprocity at Washington? Was there not evidence that they were responsible for a great part of the opposition which took the form of an upraising of the farmers against the policy? Why, then, should they not oppose it at all other points, and with the same methods and weapons?

Why, indeed? Mr. Whidden Graham must have asked himself that very question in his Wall street office, when he learned the fate and retainer of the paper trust which heosts heavily the best trust, the whisky trust and the other capitalist organizations which are now hiring him or have in past campaigns hired him to promote or oppose legislation in the name of the farmers of America or the people of Canada. Why, indeed, when there were Canadian papers only waiting to print his arguments, to adopt his key-note, to lend and expand and elaborate his case—the case of the monopolists of the United States against the opening of the American market to the Canadian farmer?

Why, indeed? And to Mr. Whidden Graham wrote the article that we know of, and who knows how many articles that we do not know of, and inspired a whole campaign of virulent abuse against the nation with whom he has taken up his lot and from whom monopolies he is earning his bread. And he sent it with great discretion to the Montreal Star. And the Star took it up, with greater discretion and vehemence than any other Canadian newspaper. The issue of Mr. Graham that the reciprocity proposals were "a plot for an annexation plot." Mr. Whidden Graham, paid lobbyist of the paper trust, who loses heavily by reciprocity, warns Canadians that if they accept reciprocity they will accept the American judicial institutions, and the American police and the American army and navy. Mr. Graham warns Canadians that if they accept reciprocity they will be robbed of the right of self-government by the corruption of congress and the legislature. "That comes out of Saint Patrick's day with a lamentation over the death of home rule in Canada. Mr. Whidden Graham, please the paper trust's time, and the Star dances like a bear."

In the campaign in the United States Mr. Whidden Graham could not use the same methods, because they were all ranged against his friends, the paper trust by the powerful lever of self-interest as well as by the pressure of public opinion. He was obliged to tell but in the former organization as a cover for his work. In Canada he has no such obstacle; he has but to write and the anti-reciprocity press will publish ad libitum. Why, indeed, should he not merely "with the same weapons," but with better and more plausible ones?

## BELGIANS PREPARING.

Completing Arrangement of Garrison on German and French Frontiers. Brussels, Aug. 31—The Belgian Government continued actively engaged in the armament of the Belgian army. The Belgian army has been dispatched with ammunition from the Liege, garnison to Namur, where the Belgian army is being inspected.

At Antwerp the engineers corps is transported all supplies material from Tete de Fleandre to the Antwerp side of the Scheldt. The Belgian newspapers explain the activity by the Belgian Government in the Belgian war utilities has awakened the Belgian war ministry to the unprepared condition of the Belgian army and navy.

Customs Receipts Increase. Ottawa, Aug. 31—Customs receipts for the Dominion for the five months of the fiscal year closed on August 31, totalled \$2,596,146. As compared with \$2,591,492 for the same period last year, an increase of \$4,654. For the month of August alone the customs receipts were \$7,723,233 as against \$7,728,728, an increase of \$1,195,400 as compared with August 1910.

## N.B. Co. Abolished.

Winnipeg, Aug. 31—The Hudson Bay company announced the purchase for three acres of a million dollar property on the Red River as athletic grounds for their employees.

## MISS CANADA TO BROTHER JONATHAN.

(A1: "That same old tree"—N.G.)

can't reject an offer that's so friendly  
 can't turn my back when you're  
 so kind.  
 Two angels to refuse what heaven  
 sends me  
 For long I've prayed that thou should  
 change your mind.  
 Mine now to choose! I glory in the  
 shining  
 Not pounds and pence nor marks alone  
 to gain.  
 A higher thought some thoughts  
 are long—  
 The noblest and the dearest course is  
 both our veins!"

Chorus:  
 My good ship will soon sail the sea,  
 No chase of the captain there'll be.  
 To you he will come,  
 With no boat of drum,  
 But palms he will bear, and there'll be;  
 Rich cargoes and rarer galore.  
 He will land and will load on your  
 shore.  
 And say in my name,  
 I'm the link in the chain,  
 That joins you and th' mother-land  
 more!

I know you're grieved most sorely,  
 good my brother,  
 That when quite young you ran away  
 from home  
 And yet, sometimes, you're laughter you  
 can't smother.  
 To think you liked your Dad from  
 over the foam!  
 But he's reformed, who did not treat  
 you doing.  
 He honors you for being bold and  
 brave,  
 One hand in his, now here's my other  
 truly.  
 Let's lift the new wave to peace, the  
 people save!

Chorus:  
 They say you're careless in some  
 household duties,  
 Come learn of me to make things  
 sweet and clean.  
 I'll teach you how to mend some ragged  
 tailors.  
 And I will learn of you what great  
 things mean!  
 Thus, hand in hand we Three will  
 guide the nation  
 To higher truths of thought than those  
 of yore.  
 That men are brothers, what may be  
 the result.  
 That peace must reign, that war must  
 be no more!

Chorus: N. Guid.

## OFFER \$50 FOR BODIES.

C. N. R. Give up Hope of Finding Bodies.

Post Arthur, Ont., Aug. 31—Abandoning all hope that the members of the engineering party, McKelvey, Nelson and Drum, whose upturned canoe was found in Lake Helen, could have escaped with their lives, the Canadian Northern is now offering a reward of \$50 each for the recovery of the bodies. The accident happened under circumstances almost identical with that of May last year, when five men lost their lives from a canoe in which they were crossing the same lake towards Nipigon. Canadian and none of whose bodies were recovered for months. The water in the lake is 100 feet deep. R. H. McKelvey, resident engineer, was 48 years of age, and his home was in Spokane. His wife was to have left there in a day or two to join him here. He leaves also two children. G. A. Drum, his assistant, aged 19, was from the Western States, the vessel's address not being known. Ray Nelson, steaksman, aged 9, was from Duluth.

## FIGHT FOR LOWER PRICES.

Women Parade Streets With Banners—Six Thousand Metal Workers.

Do The Soldiers Demand, Department of Nord, France, Aug. 31—Banners bearing the inscription "Bread at Three Cents Revolution" were borne in a procession of 2,000 persons, mostly women, here today. As they marched the manifestants sang revolutionary hymns. Lille, France, Aug. 31—The general confederation of labor has taken up the situation against the high price of food. Six thousand metal workers voiced their protest today by parading through the streets.

## AFTER STEAMSHIP COMPANIES.

Charged With Making Illegal Pooling Agreements to Keep Up Immigration Rates.

Washington, D.C., Aug. 31—Special agents of the department of commerce have reported that the so-called Atlantic conference of trading steamship lines against which the government is now prosecuting an anti-trust suit, has called a meeting in London in September.

# AROUND THE CITY

**LOCAL**  
The death occurred on Wednesday night of the three months and child of J. E. Martin. The funeral will take place at 2:30 o'clock tomorrow.

The marriage took place yesterday at the residence of Mrs. Pierre, 812, Twenty-third street, of Adolphe Scialoja and Emma Scialoja. The Rev. Dr. McQueen officiating.

Mr. and Mrs. C. W. Simon, Belleville, Ont., accompanied by their daughter Miss Laura Simon are visiting their daughter, Mrs. Walter Chisholm of 416th street.

At 10 o'clock, representing the Associated Children, a building a bill for the protection of small children was introduced at the next session of the legislature at the next session.

The marriage took place at All Saints Church, Edmonton, on August 31, of Mr. J. C. Ayers and Miss Ethel M. Kemp, both of 1000, 100th Street, Regina, Saskatchewan. Rev. Archibald Gray performed the ceremony.

The crash occurred yesterday morning of the nine months old child of Mrs. J. Butler, 421, 10th Avenue. The funeral will take place in Saturday morning at 10 o'clock from the home to the St. John's cemetery.

Weekly mail for Vancouver and Interior Lodge will be inaugurated this fall by the government. The service will be via Edmonton and Grande Prairie city and will not be started before the roads have frozen up.

Bishop Holmes of the diocese of Macanese has returned from the North after completing his annual itinerary which extends over the Arctic. He will attend the mission school to be held in London next week.

The marriage of Oscar R. McNeill, formerly of Edmonton, to Miss Alberta McNeill of South Strathcona, took place yesterday night at the Presbyterian Manse, Fourth Street. The Rev. Dr. McQueen performed the ceremony.

A. S. Byre, the Edmonton ticket agent for the Canadian Pacific, left last night on a 10-day trip to Vancouver and Victoria. He will return to Edmonton and Seattle travelling east through the states to Chicago and Minneapolis.

A one-day service from Edmonton to Pittsburgh, the west end of the U.T.P. was said to be contemplated by the railway. Pittsburgh which had been by steel three days ago is the second terminal point west of Edmonton and the construction department of the U.T.P.

**MEETING MONDAY NIGHT.**  
Mayor Armstrong, announced last night that provided the hall could be obtained for the evening, the public meeting postponed to discuss the question of the water supply will be held in the separate hotel hall on Monday evening next.

**DATE OF NATURALIZATION.**  
The Edmonton Citizens' headquarters have been receiving inquiries asking if the date for naturalization had been changed in the country. The date seems to be that it is now too late to be naturalized for the coming year. This is not the case. All those who wish to be naturalized can do so up to next October 1st. Those who should see that all those who wish to be naturalized and vote at the election, should have their papers filed by the sixth, and that they reach Edmonton on the sixth to be filed on that date.

**SMOKE CAUSED ALARM.**  
An alarm turned in shortly before eleven o'clock last night. The fire department was called out and practically every fireman and ever bit of equipment to the market square to extinguish a supposed fire in the River-Henry warehouse on 11th street. A passer-by had seen apparently lighting from the top of the building and with his smoking gun further inspection showed that the result was a double quick response from all the fire bells, the entire fire department to water pressure building reinforced. Chief Lander in company with a number of firemen visited and carefully inspected the building throughout but was unable to discover any trace of fire.

**CONSERVATIVES NONPLUSSED.**  
A meeting of the election was held by the Conservatives at office George last night. The speakers in behalf of Major Greenblatt were Mr. Davidson, Williamson Taylor and Major Davidson, who strenuously and with some advance arguments in favor of Major Greenblatt.

Mr. McKinley replied with effect in favor of him. Frank Oliver, then finally spoke at some length in favor of the Minister of the Interior, outlining his career from 1901 to the present. At the conclusion of his remarks the meeting closed quietly in favor of Mr. Oliver.

**LONDONER FOR RECIPROCITY.**  
T. Curzon of London, of the Curzon training house, London, is in Edmonton representing the interests of the company. Mr. Curzon is making a three months' tour of the United States and Canada having left London on July 21.

He has never been in Canada before and is full of interest in the country and people. He is in the former role to his expectations—a great task which is not a small one. He expresses himself as nothing but astonished at the extremely high prices prevailing in the west which condition he thinks may be removed to a great extent by the removal of a tariff barrier between Canada and the United States.

Mr. Curzon's opinion is that the best method of removing the tariff barrier is to conduct the necessary negotiations. Mr. Curzon's opinion is that the best method of removing the tariff barrier is to conduct the necessary negotiations.

Mr. Curzon says that wherever he has been in Canada he has found it to be a country of great resources and others whether they are satisfied with their lot or not, all have replied in the affirmative. That condition is "nothing but" Curzon, as to the opportunities here.

## GROCERIES

We carry a choice selection of Noel's Meat Pastes, nothing better for Sandwiches.

## A Pound Lasts Longer

The first thing a woman notices when she starts using Blue Ribbon is a better, richer flavor. Then she notices that a pound lasts longer. A pinch of Blue Ribbon makes much more tea than is given by a larger amount of other tea. And it is guaranteed satisfactory. Your grocer will refund your money if you do not find Blue Ribbon superior to the tea you have been using. Merely return the unused portion.

## SMALL STRIKES ARE AMICABLY SETTLED

Most Serious of Those in London Threatened to Lead to Renewal of Strike—Proposal of Cane of Future Trouble.

London, Aug. 31.—Numerous small strikes the offspring of the great dockworkers' strike have been amicably settled. The most serious of these which threatened to lead to a renewal of the strike, arose on the Great Eastern line owing to the company's failure to re-engage men in their former positions.

The board of trade took up the matter and tonight announced that a settlement had been reached. The company agreed to re-engage the men, and the strikers agreed to return to work. The settlement was reached after a long and bitter struggle.

The settlement of the Automobile Association's strike of 15,000 members by the 10,000 motor cars has also been amicably settled. The association agreed to provide a motor service to meet the needs of the public, and the strikers agreed to return to work.

Women's Enfranchisement. The parliamentary bill to give women the vote is now in the hands of the committee. It is expected that the bill will be passed in the near future.

## DEMANDS FOR LUMBER DOUBLE

Authorities Say Prairie Will Require Big Increase Next Year.

Vancouver, Aug. 31.—A sensation was caused today at a joint session of the coast and northern assemblies of British Columbia, when it was alleged that American competitors have taken advantage of the absence of duty on rough lumber to sell thousands of carloads of dressed lumber in the prairie markets without paying duty as required by the Canadian customs tariff.

The custom officers, it is alleged, overlooked proper classification of imported dressed lumber and it is alleged that they continue to wink at the device. The declaration was made in a speech by the president of the lumber trade union of the international boundary has resulted in an invasion of the markets of the prairie provinces and British Columbia at prices estimated to be lower than at present manufacturing cost. A strong committee, entrusted with the task of devising ways and means to meet the extraordinary conditions which now prevail, was appointed. It will report to a special meeting to be held next month.

Figures prepared by experts were submitted. They showed that the American sawmill men have not only invaded Vancouver and Victoria markets, but are actually underselling British Columbia competitors in Manitoba, Saskatchewan and Alberta. During June and July, exports from the United States to the prairie provinces amounted to 400,000 feet of lumber, a good deal of which was shipped over the inland route made by Puget Sound and the coast.

It was decided not to increase prices in the hope that the Dominion authorities would find means of averting some relief to the situation. The lumber schedule in Canada and the United States are not affected by the proposed reciprocity agreement. They have not been changed, despite competition of American mills. The demand from the prairie for rough lumber shows no signs of abating. The consumption this year will show, it was reported, an increase of 25 per cent over 1910. Stocks are about normal, those of the coast and mountain mills being 100,000,000 and 25,000,000 respectively.

A special committee charged with the task of interviewing George J. Barry, general manager of western lines of the C.P.R. in regard to car shortage was appointed. The meeting warmly applauded the announcement by recognized authority that four years' lumber requirements of the prairie will likely show an increase of 75 per cent, owing to the large influx of settlers.

When the warrant was read the accused said: "I don't see how they can make that out. They will have to prove it. It is true I owe money in Montreal for goods supplied and as I was in financial difficulties I had to clear out."

Asked if he had any kind of business he replied, "I have just rented a warehouse round by Windmill Park. We have not received orders there, but I have goods at Menzies & Co. 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100."

## The French Proposals are Satisfactory

Negotiations With Germany Are Now Entering Upon New Stage Which It is Hoped Will Soon Bring Perceptible Solution of Difficulties

Berlin, Aug. 31.—The Moroccan situation with the return this evening of M. Cambon, the French ambassador carrying from instructions from the French government enters upon a new stage which it is hoped in all quarters will be decisive. Here, Von Klotz, the German foreign secretary, and Chancellor von Bethmann-Hollweg, who are both in Berlin, are expected to meet during the course of the day.

It is understood that the German government is already in possession of the French version of the French point, and the general proposals of France with reference to safeguarding Germany's commercial interests. Morocco are regarded as satisfactory but the settlement of details is complicated by the compensation question.

This probably will entail a prolonged discussion. It has not yet been decided when the German and French diplomats will meet next to discuss the latest proposals but it is not likely that the date will long be delayed. It is generally believed that the meeting will take place on Saturday.

## COUNTRY PERFECTION WITH AUSTER

Triumphal Tour of Nova Scotia Great Tribute to Premier

New Glasgow, N.S., Aug. 31.—Premier Laurier concluded his Nova Scotia tour with a triumphal visit to St. John's, N.S., where he was received with the wildest enthusiasm. Addressing eight thousand here, he said he had come to Nova Scotia to conduct a reciprocity educational campaign but he found Nova Scotians knew what they wanted. He declared that while other provinces might not give the scope that Nova Scotia afforded, in fact, Quebec would hold its own and gains would be made in return and the west.

The feature of the Premier's speech was his exposure of the pamphlet article by Henri Bourassa, charging Laurier with conspiring with British imperialism to further the cause of imperialism. Investigation had shown that the distribution of this article in Quebec, Manitoba had been made by the anti-reciprocity Conservatives of Montreal, the same men who in the Quebec speaking provinces, were at one time that he was by reciprocity convention connection.

The Premier put the double dealing up to Laurier and Bourassa and the Canadian people should be satisfied with an explanation of the latter's conduct. He then returned to St. John's, N.S., where he arrived at 10:30 p.m. on a special train from Halifax this evening. The Premier was met at the station by the mayor and the city council. He then went to the Hotel Windsor, where he was met by the mayor and the city council. He then went to the Hotel Windsor, where he was met by the mayor and the city council.

The meeting at the arena was one of the largest ever held in New Glasgow and the Premier addressed it at length on the reciprocity question and the navy bill.

Meeting at Truro. Truro, Aug. 31.—Premier Laurier stopped for a short time at St. John's, N.S., where he was met by the mayor and the city council. He then went to the Hotel Windsor, where he was met by the mayor and the city council.

He then went to the Hotel Windsor, where he was met by the mayor and the city council. He then went to the Hotel Windsor, where he was met by the mayor and the city council. He then went to the Hotel Windsor, where he was met by the mayor and the city council.

THE RUSSIAN LION  
READY FOR BATTLE

Jackenschmidt (posed training yesterday) — Slim Hat Boys Wrestling Club, 100 West 10th St., New York, N. Y. in Great Canadian Match, Champion of Victory.

Chicago, Aug. 21. — George Hackenschmidt, the "Russian Lion," who meets Frank Gotch for the world's heavyweight championship here on Labor Day, put in his last hard training session today at the Chicago Athletic Association. The aspirant for the championship did not work out as well as he has in the past. Wrestling fans believe a man should work for an event of the most important kind in recent years. A swim in the lake, a few moments on the mat with Dr. Roller, his chief trainer, and Koch, his German helper, and some work on the ropes of the ropes completed the hard day's work.

Tomorrow Hack will go to a little road and gymnasium work. Saturday he will go to the beach. Sunday he will loaf all day and Monday he will be back in the gym.

# MAREE GIVES REPRIMAND

G.P.R. Authorities Severely Criticised for Conditions at Yale, B. C.

Vancouver, Aug. 31.—Fleeting scores of lawyers and with a list of over half a hundred cases facing them, Chairman Maree and Commissioner McLennan of the Dominion Railway Commission, opened a sitting in Vancouver today. They are not expected to conclude until next Tuesday at latest.

"It should have thought that they would have indicted the man who was responsible for the condition of affairs at Yale," said Chairman Maree. "Mr. Groucher, 'Yale' at Yale, the historic Fraser Canyon town of Yale, and Rev. J. A. Underhill, chaplain of All Hallows school, Yale, protested to the board against the blocking of certain streets in the town of Yale by the G.P.R. authorities. The streets mentioned were Albert street and Douglas street, and the complainant alleged that for four months a string of laborers came and went standing in the middle of the wide, white, clean railway improvements were being carried out. No sanitary conveniences were provided and the residents were frequently scandalized by the actions of the laborers. The situation from the point of view was also unsatisfactory, it was charged.

In addition, they stated that police had been placed by the company in the middle of the streets, large dogs were dug, one obstructing traffic, the other were left across the intersection of streets and trains ran through Yale at too high a rate of speed. The station platform was too short and the railways were not placed at a proper height above the street level leading from a report of an inspector, Chairman Maree corroborated with the statements and went on to declare that it was a wonder that the people did not take other steps to obtain relief.

Mr. Maree said he hoped that such an unsatisfactory condition would not be allowed to prevail again.

Will Remedy Conditions.  
On behalf of the company, J. H. McMillan stated that for the future railroad work of a siding for laborers' cars would be placed half a mile or a mile west of All Hallows school.

The board declined the request of the residents of Kitimatul on the subject.

line of G.T.P. east of Prince Rupert, who demanded a station. The board decided against them on the grounds that a stop would have to be made on a heavy grade.

Allegations were made that suitable accommodations was not provided at points on the C.P.R. for live stock being shipped from the east. J. D. McNeill of the G.N. Transfer Company, applied for an order compelling the company to improve its facilities and to provide that proper night feed for feeding purposes and still able to feed them about again on the same train. This privilege, he asserted, was denied and if stock was unloaded for feeding it had to wait over until the next morning, even though there was plenty of time in which to feed before the train to which the stock cars were attached pulled out. He complained of the quality of the feed, the condition of the yards and the prices charged.

Calgary was mentioned particularly and F. W. Peters of the C.P.R. warmly denied that the stock yards there were not up to the mark. He went on to say that this complaint was the first one of the kind he had ever heard applied to the Calgary yards, which were managed by a private company under control of the city. While shipping at that point, was not allowed to buy feed except from the company, at the time they this feed was good and the prices reasonable. The time schedule of the stock train made it impossible, Mr. Peters stated to unload stock for feed and still hold the train. The case is continuing.

**MAY BE ONE OF ILL-PAYED TUG**  
**Decomposed Body of Boy Found on Lake Huron Off Cape**

Windsor, Aug. 31.—The decomposed body of a boy was found floating in the lake by Capt. Burt of the City of Windsor. The body was found in the middle of the lake, near the shore, and was identified as that of a boy named John, who had been missing for some time. The cause of death is not yet known.

**Ontario Woman to Run**  
Ottawa, Aug. 31.—Mrs. Emma A. Emerson, a sister of Hon. H. R. Emerson, was today nominated as candidate for the vacancy on the public school board and will probably be elected over her male opponent.

L. Booth, one of Ottawa's multi-millionaires, is included among her supporters.

# ST. CASSIFIED

Eleven Million Gallon Pumps Supply Only Three Millions

For nearly two hours yesterday afternoon the council met in conference with the commissioners, the city engineer, the superintendent of the power plant and the superintendent of the waterworks discussing the problem presented by the shortage of water.

Though an effort was made to fix the responsibility for the trouble the consensus of opinion at the conclusion of the discussion seemed to be that no one could be blamed and that the committee in charge was making all reasonable effort to discover the cause of the shortage and secure an improvement of the present unsatisfactory conditions.

The most interesting and at the same time the most perplexing feature of the problem is the fact that while the supply of water delivered in the city is so actually inadequate the pumps are apparently working in a most satisfactory manner. While a city of the size of Edmonton should consume more than three million gallons of water per day, pumps which "on paper" are credited with a capacity of eleven million gallons are unable to supply the city with water. The theory that there is a leak in the system has been advanced but is regarded as unworthy of serious consideration, as it would be quite impossible for so many million gallons of water to leak under the present conditions.

**W.B. Experiment.**  
Within the next forty-eight hours a number of experiments will be made to ascertain whether the pumps are actually driving the water through the distribution system. The clear water basin will be filled and the water then be allowed the flow back to the pump and will be driven by them into the distribution system. As the capacity of the basin is known it will be possible to determine by means of the time which elapses before it is empty of water, the actual working capacity of the pumps.

If the cause of the trouble is not detected within forty-eight hours the council will meet again, when it is probable that a decision will be reached to engage expert help from outside.

In order to fix the responsibility for any future breakdown it was decided that as well as a remedy has been found and applied the control of the entire waterworks system from the intake to the distribution plant and also all construction work shall be placed in the superintendent and with this end in view the commissioners were instructed to submit a report to the superintendent and with it. At the present time the responsibility for different departments of work is divided between superintendent.

**To Extend Street Railway.**  
The board of the Margrath Hotel Co. to pay the street cost of an extension of the street railway from the east end of the City Park to the Irwin street in the Highlands subdivision was considered and the following resolution passed: "Resolved that in the Margrath Hotel Co. should be accepted, provided that the Margrath Hotel Co. will execute an agreement satisfactory to the city collector, the city engineer and street railway superintendent and acceptable to this council."

The matter was referred to the above mentioned committee to draft the agreement, which will be introduced at the meeting of the council.

On behalf of the company R. H. Woods assured the council that Margrath Hotel Co. would willingly comply with the suggestions of the street railway committee and that they should guarantee the department a bonus on the service for the first year, and that they should agree to the same fare conditions as prevail on the Pacific Coast extension and that they should agree to the full control of the schedule by the department.

**To Commence Work at Once.**  
If the agreement is passed on Monday the work on the extension will commence at once as the offer is conditional upon its completion during the fall of this year. The city will build an extension from the west to the east end of the park at a cost of \$15,000. Margrath Hotel will pay the entire cost, estimated at \$15,000 of the extension from this point to Irwin street in the Highlands subdivision. The amount will be paid out as required or, if the council wishes it, will be deposited at once in the bank to the credit of the city. In view of the difficulty in getting steel at short order the company has today, on the strength of the assurance of favorable consideration given by the council, wired the order for the steel required.

**Urged Acceptance.**  
H. H. Myrdman presented petitions signed by residents and property holders, relative Addition, City Park Annex and the Annex Addition, urging the acceptance of the offer by the council.

The Margrath Hotel Co. also made an offer to the city of three blocks on the river bank in the Highlands subdivision in the return for the extension of the water main to this district. This offer was not discussed by the council at this meeting and will be considered at a later date.

**To Draft Bill for Amendment.**  
The offer of W. H. Pearson to establish a plant for the manufacture and distribution of artificial gas to be supplied at an initial charge of \$60 per thousand cubic feet was referred to a committee composed of the commissioners, A. H. Myrdman, McLennan and Gowan, the city collector and Mr. Pearson's solicitor, C. C. McCaul, C.C. This committee will draft a form of agreement embodying the offer of Mr. Pearson's company which will be considered by the council in the future at the earliest possible date.

**DASTARDLY ATTACK ON MINER.**  
Attempt Made to Blow up Home of Coalman Near—Edmonton B.C.

Calgary, Aug. 31.—There is no change in the miners' war situation along the Crow's Nest.

This was the statement of Harry Ness, one of the members of the miners' executive for district sub. 112, who was in the city yesterday.

Ness would not discuss the situation, stating that from a miner's point of view, there was nothing to say, as it had all been published in the press. Along the Crow the men are holding up well, and are in the best of spirits in the Coleman district there is considerable excitement amongst the miners, through an attempt a few days ago on the part of scoundrels to blow up one of the miners' homes with dynamite.

This attempt was made Friday night and for what object no one seems to know, ignorance on the part of these miners being the cause, as it resulted in a complete failure to accomplish anything.

The miners have appointed a settlement of the situation, to be held at the Coalman's house to make a thorough investigation of the affair with a view of bringing the guilty party to justice.

**URGES ADVERTISING OF ONTARIO'S RESOURCES**

President of Toronto Board of Trade Makes Plea for Increased Publicity by Lands and Central Province by Advertising Publicity Week.

Toronto, Aug. 31.—At the exhibition directed by the Ontario Board of Trade, president's fine Toronto Board of Trade, made a plea for the better settlement of Ontario's natural resources.

"We have an area of 1,000,000 acres," declared Mr. J. H. Macdonald, president of the Ontario Board of Trade, "which is settled. There is still a hundred million acres belonging to you and me, for which we are doing practically nothing. Can we expect the railways to help us develop our resources? No. They are interested in the west, the land bank. Owing to the billions of dollars of change that has been taken through the barren parts of Ontario on the way to the west." "We should be interested in the fertile east? Nothing. The people of the United States who take the west do not know what they should of Ontario. It is our duty to see they do. We should be there in no fair in the west where we do not have as good a supply of land, products and resources as we have here."

**TURN DOWN MACLEOD.**  
MacLeod, Aug. 31.—Mr. Thomas Shaughnessy recently told a delegation of the Macleod board of trade who asked him about his plans to-day that they would not be located at Macleod. "It is not out of the question," said the president of the C.P.R., "we must place them where conditions are practically in a central location. There are such advantages at Calgary, and after a pause—" at Medicine Hat."

Mr. Thomas promised Macleod to keep up with its development and give a railway depot garden. He said that the company would do its best to supply one to handle the grain crop and while characterizing the coal strike as a most unfortunate situation "We will not let you freeze."

**A Glint of Beauty in a Day's Journey.**  
R. F. Fain, Secretary of the Ontario Green or Macleod Committee, said that the company would do its best to supply one to handle the grain crop and while characterizing the coal strike as a most unfortunate situation "We will not let you freeze."

**Winnipeg Free Press Give Ice Examination to False Assertion Made About It.**

Winnipeg, Aug. 31.—The campaign is opening up in Winnipeg with considerable life. The Free Press this morning says under the caption "A Gross Misrepresentation." "E. R. Levinson, speaking at the Conservative meeting in this city last night charged the Free Press with having gained approval an attack made by an eastern newspaper on the Jews. Without leading about the bush, the Free Press begs to state that E. R. Levinson is a liar."

"The Free Press quoted with disapproval a statement which had come from the local court commented this morning when Joseph Black and Fred Kreiger were charged with manslaughter. About one month ago a scaffold in the C.P.R. yards collapsed precipitating John Petrovich to his death. The coroner's jury found that there had been negligence in the construction of the scaffold. It

Without leading about the bush, the Free Press begs to state that E. R. Levinson is a liar."

**DISTINGUISHED VISITORS.**  
Duke of Sutherland, Lord Charles Sutherland and Lord Desborough on Way West.

Sault Ste. Marie, Mich. Aug. 31.—Distinguished visitors to Sault Ste. Marie, Ontario, this morning were the Duke of Sutherland, reputed to be the biggest landlord in Scotland; Lord Charles Sutherland, more familiarly known to the sons of the British navy as "Condor Charlie," and Lord Desborough.

They arrived on the Duke's seagoing yacht *Catalina* and are en route west where the Duke of Sutherland has large land interests. The party was met by a large number of the mammoth steel plant and were much impressed by the magnitude of the industry. The party will leave for Port Arthur this afternoon where they will take the train for the west.

**Charged With Manslaughter.**  
Winnipeg, Aug. 31.—One of the most interesting prosecutions which has come before the local court commented this morning when Joseph Black and Fred Kreiger were charged with manslaughter. About one month ago a scaffold in the C.P.R. yards collapsed precipitating John Petrovich to his death. The coroner's jury found that there had been negligence in the construction of the scaffold. It

For further particulars apply to nearest C.P.R. agent or to R. G. McNEILL, District Passenger Agent, CALGARY.

# The Fall of 1911

Has brought us many splendid ideas. We have some really swell FALL OVERCOATS—natty, short and reasonable in price. You will get caught some cold night and wish you had one. Our FALL SUITS are the consummation of the tailor's art equalling anything shown in the States and they will wear. There is no eccentricity about them but they are attractive.

A word about our NEW FANCY SWEATERS—Their appearance combined with the comforts they afford will give you entire satisfaction.
